### SIDE C PREVIEW WITH WARNING LABEL:

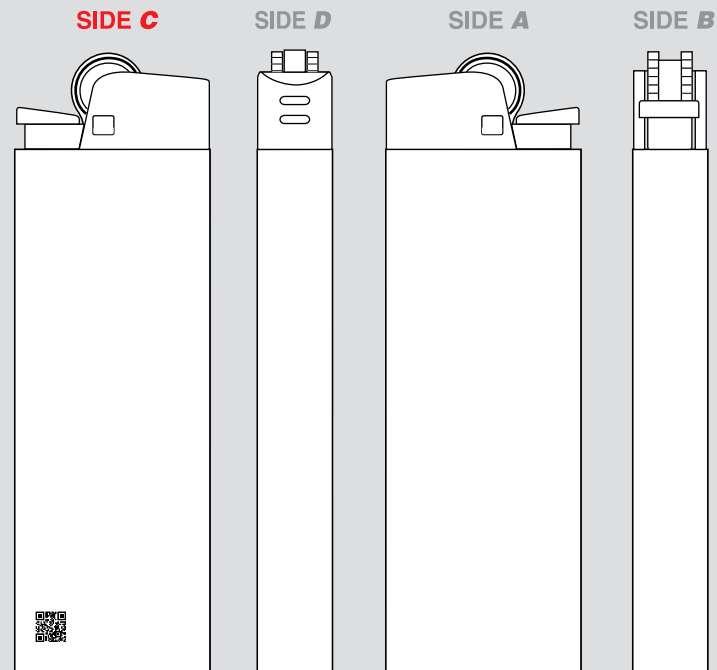

The warning label will be affixed to the back side (Side C) of lighter after imprinting like so. For this reason we recommend using only background images (Without text or logos) on this side.

A small QR code will be printed on side C below the warning label, on order quantities below 12,000 units.

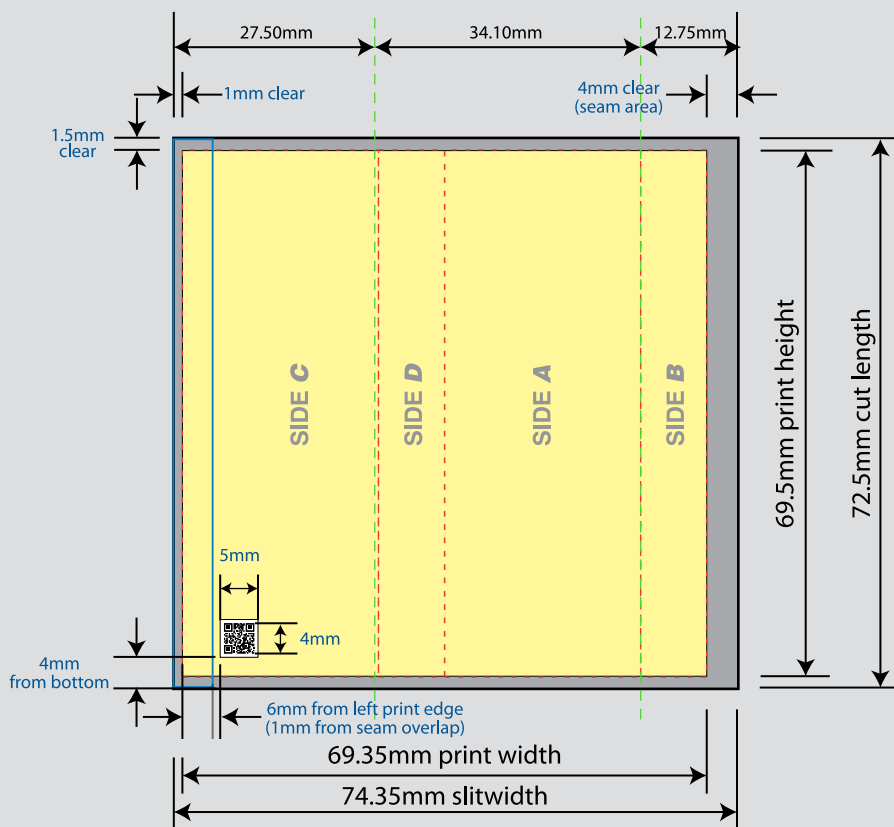

\*All lighters come with a required federal warning label affixed to the back side. The label will cover up anything printed on the back side (Side C), and will need to be removed by hand.
